**Subject:** Application for the Position of *Senior Software Engineer*

**Dear Hiring Manager,**

I am writing to express my interest in the Senior Software Engineer position within your esteemed organization. With over 6 years of experience in full-stack development, cloud integration, and enterprise software delivery, I am confident in my ability to make a meaningful contribution to your team.

My technical proficiency spans a modern development stack including .NET Core, ASP.NET MVC, Angular, and Microsoft Azure. In my current role at Globant, I have been instrumental in architecting scalable and cloud-native applications, improving both performance and maintainability. Collaborating closely with European clients, I've gathered requirements, ensured alignment with business objectives, and contributed to the successful deployment of international software projects.

At CitiusTech and Globant, I have led and contributed to the development of scalable solutions that improved performance metrics by up to 40% and reduced deployment cycles by 30%. My expertise includes designing RESTful APIs, implementing CI/CD pipelines on Azure DevOps, and mentoring junior developers to uphold clean coding practices and agile delivery standards.

**Key highlights of my experience include:**

- Strong command of C#, .NET Core, ASP.NET MVC, Entity Framework Core, Angular, and Azure services.
- Expertise in developing and integrating RESTful APIs and microservices within distributed systems.
- Proven track record in CI/CD automation, DevOps, and cloud deployments.
- Experience working in agile, cross-functional teams with international stakeholders.
- Proficiency in English (C2) and working knowledge of German (A1).

I am actively seeking a challenging role within the EU and am fully open to relocation and visa sponsorship. I am confident that my technical acumen, client-oriented mindset, and collaborative approach would be an excellent match for your team.

Thank you for considering my application. I would be grateful for the opportunity to further discuss how my experience and skills align with your team's goals. I am available at your convenience for an interview, virtual or in-person.

**Best regards,**

Suraj Khodade
